

U.S. Smokefree Casinos and Gambling Facilities

October 3, 2017

State-regulated Gambling Facilities

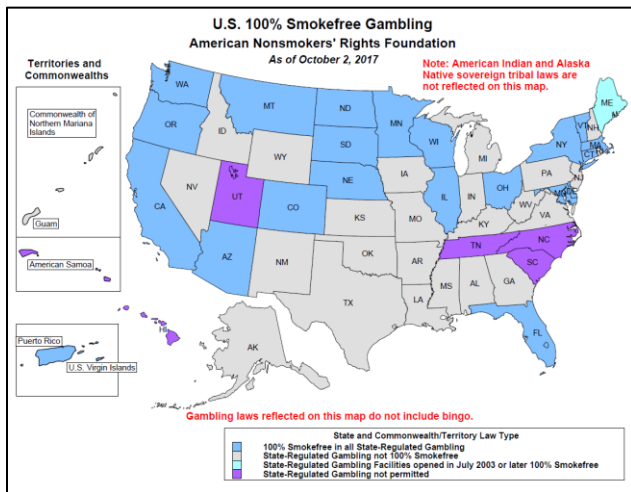

There are at least **782** state-regulated gambling facilities that are required to be 100% smokefree indoors. Of the casinos and other facilities listed below, most are required to be smokefree by state law. Additionally, gambling facilities marked with an * are not required by law to be smokefree, but are smokefree by their own corporate policy.

Vermont and Wisconsin's smokefree laws cover state-regulated gambling facilities, but neither state currently has any such facilities. Maine's smokefree law requires state-regulated gambling facilities opened after July 1, 2003 to be 100% smokefree, but prior facilities may have a smoking room.

State-regulated gambling facilities are not permitted in American Samoa, Hawaii, North Carolina, South Carolina, Tennessee, and Utah, although some permit bingo and/or lottery.

→ See pages 20-21 for American Indian Sovereign Tribal Gaming Facilities.

Visit our smokefree casinos site at www.smokefreecasinos.org for more information.

To view a larger version of this map of the U.S. states, commonwealths, and territories that require state-regulated gambling facilities to be 100% smokefree, go to <http://www.no-smoke.org/pdf/100smokefreecasinos.pdf>.

^ Maine law requires gambling facilities opened after 7/1/03 to be smokefree, but those open prior to 6/30/03 may have a smoking room.

* Gambling facility is not required by law to be smokefree, but is smokefree by own corporate policy.

Illinois now has more than 18,000 video gaming slot machines in bars and other establishments. Like casinos, these venues are all required to be smokefree indoors per state law.

American Indian Sovereign Tribal Gaming Facilities

Gambling facilities are smokefree by their own sovereign tribal policy.

| Property | Community | Type of Property |
