Defending your right to breathe smokefree air since 1976

Getting Started

Ordinance Development Planning Form

Enacting a local smokefree indoor air law is the best way to protect people from secondhand smoke exposure. Local ordinance campaigns educate the community about the health effects of secondhand smoke, and laws passed at the local level have high rates of compliance because community members were involved in the process and understand why the law was enacted.

A successful campaign effort requires a great deal of planning and organization. The public needs to be educated about the health dangers of secondhand smoke and their right to breathe smokefree air in all workplaces and other indoor public places. The smokefree air coalition works together with the local health department and other allies to strategize for the campaign; educate the public, business owners, and local lawmakers; become well-versed with the local lawmaking process; plan ahead for implementing and enforcing the ordinance; and divide up the responsibilities associated with a smokefree air campaign.

The following questions can help you determine whether your coalition and your community are ready for a local smokefree air campaign, and identify areas for discussion and improvement. After you complete this form, please contact ANR at 510-841-3032 to discuss your findings and questions. ANR has been involved with thousands of smokefree indoor air campaigns since 1976, so we have the experience to help you plan for success.

3. What additional individuals or organizations do you still need to build relationships with in order to have meaningful inclusion with more segments of your community?
Tip: For advice on how to assess and diversify your coalition, please refer to The Praxis Project's document "Building Diverse Community Based Coalitions," available on their website at http://www.thepraxisproject.org/tools/Campaign-Development-Organizing
4. Does your coalition have a written public education, earned and paid media plan, and campaign plan?☐ Yes☐ No
⇒ If Yes:
5. Which groups were part of the planning process to date?
6. Which groups have not been part of the planning process to date?
7. Is there an effort for outreach to include an emphasis on meaningful partnerships in planning or is it just to "sign on"?
8. What challenges does the coalition face within a smokefree air policy campaign?
9. Does your coalition have a database of grassroots supporters?
☐ Yes ☐ No
⇒ If Yes:
10. How many individuals are in the database?
11. How many people are in your community?
12. What percentage of the community's population does your database represent?

Please note that a rule of thumb for success is to have 10% of your community's population in your database as having self-selected that they support this issue.

13. What r	mechanisms does your coalition	use t	o comm	nunicate with your grassroots supporters?

23. If yes, please list those individuals, their area of expertise, and whether they have had spokesperson

☑ OPPOSITION:
From what groups do you expect to have the strongest opposition?
2. What steps can the coalition take to neutralize or reduce the effects of legitimate opposition (i.e., opposition not funded or organized by the tobacco industry) in the community?
Tip: Please refer to "What to Expect from the Tobacco Industry" for more information. The document is available on the ANR website at http://no-smoke.org/pdf/whattoexpect.pdf
3. What steps can the coalition take to track/identify opposition generated and supported by the tobacco industry (i.e. industry funding of local hospitality or front groups)?
4. What background information about the tobacco industry should the coalition have?
5. What economic impact information should the coalition have?
☑ ORDINANCE LANGUAGE:
ANR's model ordinance for 100% smokefree workplaces and public places has been used by hundred of cities and numerous states. The purpose of the model ordinance is to provide fair and sound language that clearly states the intent and specific points of smokefree policy, fosters clear implementation and enforcement, stands up to legal challenges, and achieves the health goal of protecting people from secondhand smoke.
1. Downloaded and reviewed ANR's model ordinance language, available at:
http://www.no-smoke.org/pdf/modelordinance.pdf

Smokefree advocates are seeking to change the status quo rather than just maintain it, so we have to out-organize the tobacco companies and their PR firms. In order to overcome all the industry's dirty tricks, we typically need to demonstrate more public support than has ever been seen on any issue in the community.

There is also "The Rule of Halves" to consider. If you need 200 people to show up to a meeting, then you need 400 people who commit to attending, and need to invite 800 people who previously said they would be willing to attend a meeting, etc.

Many ordinance campaigns involve 6-20 hearings, so this is one of the reasons why we need a broad and deep database of supporters, so that we can continue to mobilize support rather than peak too early. *Remember that public opinion is not the same as a coalition's capacity to affect policy change.*

☑ OUTREACH TO THE MEDIA

TRADITIONAL EARNED MEDIA:

1. Identify the key media outlets for your community, and the reporter most likely to cover stories related to a smokefree air ordinance.

Media Outlet	Type of Media (TV, radio, print)	Reporter's Name	Supportive of Issue?	Lead time to place an ad?	Specialty (e.g. health, business, editorial)

2. What steps can media outlets in yo		atior	nships with reporters and editorial boards for the

	Yes		No
3. Are you connect	ted via social media to your Natio	onal	Partners and Coalitions in other states or
	Yes		No

NON-TRADITIONAL EARNED MEDIA:

1. Identify the non-traditional media in your community and ways to connect with them. Examples include organizational newsletters, email list-serves, social media, church bulletins, hospital bulletins, etc.

These are important, low-cost communication channels that should not be ignored.

Name of Medium	Type of Media	Contact Person	Supportive of Issue?	Lead time to place an ad or article?

Tip: It is important to not only know the appropriate contact person but to also practice engaging these unique communication channels on a regular basis.
